##### b. **Trademark: Splitting Policy and Operational**

Jacques proposes that the Operational and Policy sides of Trademark and Licencing be split between the current Trademark team and a Trademark Committee. Steve introduces as discussion on our finances, and income areas like the Shop and Demo site. He feels that we should focus in detail on income and expenses. Altansukh (Sukh) shares some income ideas with

the board, including reaching more countries.

ii. **Capital Committee - Structure suggestion**

Philip (Phil) proposes setting up a structure of smaller groups below the Capital Committee, including Fundraising, Sponsorship, Shop, Website, with a lead for each. Each Sub-Committee lead would report back to him. Ryan offers to share some experience from the past. Steve and Jacques voice their support for the idea. James shares his thoughts on donations, and suggests that we also look at what has worked for other projects. Both Phil and Steve feels that it's important that people understand where the money are going to. Ryan suggest that we put ideas in a problem-solution format for easier processing.

iii. **Demo site overview**

Ryan provides the new board members with some background to the Demo Site. Jacques confirms that Peter Martin from the Community Leadership Team (CLT) will be assisting him in a meeting with CloudAccess.

iv. **Shop overview**

Suhk proposes that we should have regional shops, to reach more people outside the US markets. Phil agrees with the idea of regionalising the shop. Dianne confirms that shipping can currently be a prohibitive cost. Print-on-demand and other options can be investigated.

d. **Forming a board of advisors**

Steve raises the idea again of forming a board of advisors, that could share their experience, and provide the OSM board with advice on certain matters. Steve will take the discussion further. Alice volunteers to assist.
